New Delhi, India

Date: 19 January 2022

I am writing this letter to recommend Snehasish Konger for the position of web developer at your company. Snehasish Konger worked for my blog page (Techdigitalhunt.com) for nearly a month, and he was routinely throughout that time the most creative and capable web developer we had. He had a fantastic eye for unique designs, and was able to implement some of the best strategies that our blog had.

Snehasish developed landing pages, UI design and development, and web page design and development. He played a significant role, often, in developing and implementing overall web strategies, and dealt with the details along with the bigger picture. His coding was excellent and his designs were unique and innovative.

A huge part of Snehasish's job with us was coordinating interdepartmentally to facilitate the completion of our goals through web development. He was always thoughtful and considerate, an excellent team player who can also work independently and do a fantastic job. Snehasish can seemingly do anything, so he's very highly recommended.
